PROFILE

Full Stack Web Developer with a flair for creating elegant web development solutions. Recently completed a full stack program from The Coding Bootcamp at the University of Sydney. Developed a MERN Art School Website that helps the students to showcase their art skills, enhance student teacher communication and a chat room application. Have also developed websites in Wordpress and Laravel. Possesses good problem solving skills, devises innovative solutions and fosters teamwork culture to meet the goals. Motivated by meeting set targets within deadlines as it gives a sense of accomplishment. Enjoy working in a team environment and was able to deliver excellent results in a recent project where I worked in a team of three, to develop a game app which features a nostalgic game theme. Excited to learn more while working as a part of a fast paced and quality driven engineering team.

PROJECTS

Art School

Art School is a MERN website for students, teachers and admins of an institution. The students can showcase their skills by posting their artwork. Teachers can submit reports and students can view them. There is a chatroom application for the users.

Main Skills:

- Set Authorization using Redux.js, JSON Web Token and Passport.js
- Amazon S3 Web Service for image upload.
- Use of React Context
- Use of Socket.io to create a chat application
- Material-UI used throughout the website
- Form validation using Validator.js
- MongoDB database and populating different collections.
